

Cowichan Land Trust

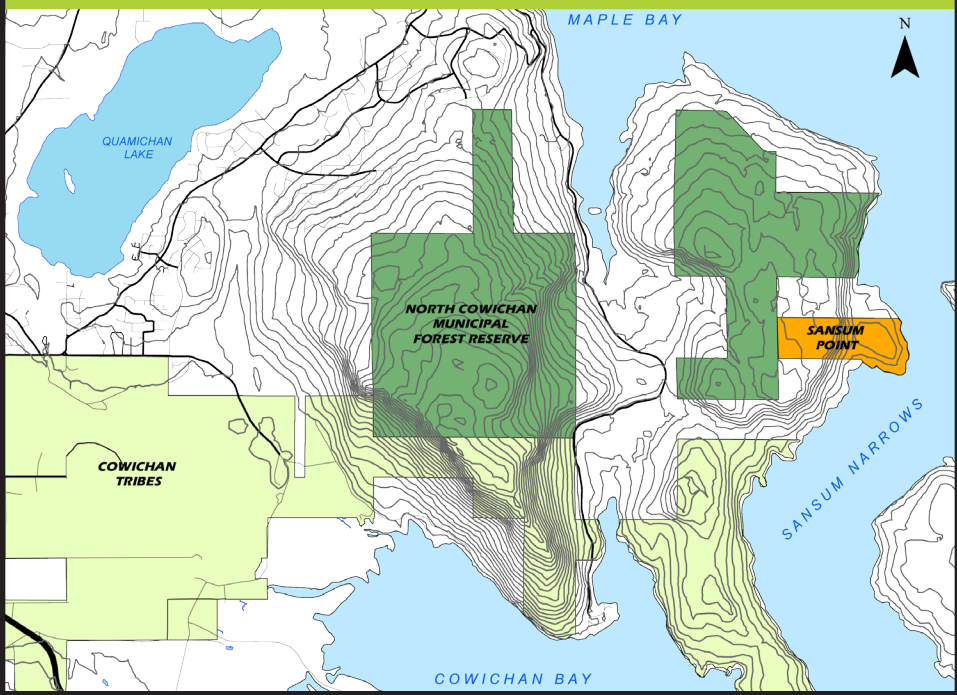

The Cowichan Valley.... It's Worth Protecting!

Protect Sansum Point

Nestled between the Municipal Forest Reserve and Sansum Narrows, Sansum Point's moss and lichen-covered rocks, towering Arbutus and Garry oak trees open up to spectacular views of Saltspring Island. This beautiful 128-acre property near Duncan contains Coastal Douglas fir— some of the rarest forest ecosystem in BC.

In order to protect Sansum Point, the Cowichan Land Trust is working with The Land Conservancy of BC, Wilderness International and the CVRD to purchase this site. Once purchased, Sansum Point will further the ecological connectivity of the area, as well as create new possibilities for outdoor recreation through designation as a Regional Park.

With your commitment, we can ensure the rich ecological diversity and future recreational opportunities become a community treasure, forever.

Cowichan Land Trust

The Cowichan Valley.... It's Worth Protecting!

☒ **YES!** I want to help protect Sansum Point!

To protect this community treasure forever, here is my gift of:
